To whom it may concern,

Southwestern Academy has approved the testing method provided by Memosa Global Assessment and have found it to be a suitable method to assist with the assessment of an application to study at our college preparatory school.

Southwestern Academy is happy to accept it as a method to analyze the level of a student's understanding of Mathematics and Science. Knowing the standard of the tests available at Memosa Global Assessment enables us to understand the ability of the student in the four subjects available – Mathematics, Biology, Chemistry and Physics. If a student achieves above a 3.5 GPA within the last three years, it indicates to the school that the student may be a suitable applicant to receive a merit scholarship.

Please feel free to contact me regarding our merit scholarship as I am happy to assist.

Kind regards,

Elena Lopez

Director of Admissions
